ACKNOWLEDGEMENTS

The Dudley Grant Memorial Trust, as the lead coordinating agency for the national Early Childhood Curriculum Project, wishes to acknowledge with great appreciation the contribution and hard work of all the participating individuals, groups and agencies.

The task involved the revision of the existing curriculum guide for the four- and five-year-old age groups and the development of a guide for the birth to three-year-old age cohorts. Development of the supporting documents such as the Scope and Sequence and the Conceptual Framework for the age-range birth to five years was also a vital part of the process.

Many Early Childhood professionals have contributed to the development of these documents. While it would be difficult to mention everyone by name, we must acknowledge some key individuals and groups who made significant inputs into the production of the documents.

We acknowledge the leadership, coordination and curriculum writing contributions of Dr. Rose Davies, Senior Lecturer at the Institute of Education, University of the West Indies and chief consultant for the Project.

We thank especially the following outstanding contributors:

- › Mrs. Joyce Jarrett for her vision and enormous generosity in sharing her time and expertise in the revision and development of the birth to two-year-old section of the Curriculum Guide
- › Mrs. Eugena Robinson for her significant contribution in the development of the Curriculum Guide
- › Dr Donna Chin Fatt for her special contribution in reviewing the Scope and Sequence document and aspects of the Curriculum Guide
- › Mrs. Lorna Thompson for her commitment, leadership and expertise in the areas of curriculum development and numeracy
- › Mrs. Jennifer Silvera for her commitment, contribution and expertise in the area of literacy;
- › The Education Officers and Administrators of the Ministry of Education, in particular partners in the Early Childhood Resource Centres, and in the Early Childhood, Core Curriculum and Special Education Units
- › The parents, early childhood practitioners and children who provided pictures and gave valuable feedback during the curriculum development process
- › The Early Childhood Commission; HEART/NCT-VET; Social Conflict and Legal Reform Project; UNICEF; McCam Child Development Centre; Shortwood, Sam Sharpe and St. Joseph's Teachers' Colleges; Ministry of Health; PALS and the Barita Foundation.

- › Members of the George Brown College, Toronto, Canada for their assistance in reviewing the documents
- › Members of the Review Teams for their guidance and time
- › Members of the Lead Group for their leadership in, and dedication and commitment to the process
- › Members of the Technical Monitoring Committee for their support and leadership.

INTRODUCTION

Over the past sixty years, advances made by other countries in their provision of early childhood programmes to compensate for deficiencies among children of the poor, have played a significant role in stimulating action-oriented interest in early childhood development in Jamaica.

In 1938 when the first play centre was opened in Jamaica for children from three to seven years, even the younger children at home benefited. The parenting skills learnt, were passed on by these parents to their children at home. So strong was the effect of the early interventions in Jamaica that the Bernard van Leer Foundation started its first project for early childhood education in 1966 to benefit children four to six-year-olds. The first model day care programme for birth to three-year-olds was established at the Regional Preschool Child Development Centre (RPCDC) at the University of the West Indies (UWI), Jamaica in 1974, as a collaborative venture between UNICEF, UWI, and the Ministry of Education. The RPCDC (renamed the Caribbean Child Development Centre - CCDC in 1986) functioned as a model demonstration day care centre, providing training in best practices in early childhood care and education for different levels of early childhood practitioners from the English-speaking Caribbean. The centre also provided leadership in research, curriculum development and parent education.

The RPCDC provided strong support to the National Day Care Programme which was launched by government in 1975 to make day care affordable to the poor working parents of Jamaica. The development of the day care sector did not keep pace with the national goals for early childhood education, consequently a policy decision was taken in 1997 to integrate day care services (then located in the Ministry of Health) into the Early Childhood Unit at the Ministry of Education.

Other project initiatives that have enhanced day care development in Jamaica include:

The Teenage Mothers Project (TMP) in Clarendon, which represented Jamaica's first organized day care centre for teen mothers and their babies. These mothers brought their babies to the project centre where they learnt and practised parenting skills, in addition to receiving training in vocational skills. The Women's Centre programmes subsequently established in Jamaica, were fashioned off the TMP model.

The Roving Caregivers Programme is an offshoot of the TMP. In this programme care-givers are trained to visit homes and guide mothers with young children in the correct procedures for caring and stimulating their children. This programme has received an international

award for innovation in child-care for the underprivileged and it is now being replicated in some Eastern Caribbean countries.

The TMP manual will ideally complement this new day care curriculum, by bridging the gap between children in day care centres and the children at home.

The new day care curriculum is a resource that will provide guidance and support to caregivers in how to provide developmentally appropriate environments for infants and toddlers in group care. It represents a very positive development in the provision of day care in Jamaica, which has traditionally been a very under-served and under- resourced area of service for young children.

SUMMARY OF THE CONCEPTUAL FRAMEWORK FOR THE CURRICULUM

One important aim of early childhood curricula is to help children to achieve the broad developmental goals and outcomes considered desirable within their particular community. In this regard, representatives of 19 Caribbean countries met in Barbados in 2001 to identify desirable learning outcomes for young Caribbean children by the end of the early childhood period. The group identified the following six desirable learning outcomes or qualities for young Caribbean children:

Wellness – a child who is healthy, strong and well adjusted. The child will be physically well developed with good motor coordination and will feel generally good about him/herself.

Effective Communication – a child who is an effective communicator. The child will understand and use language appropriately.

Valuing Culture – a child who values his/her own culture and that of others. The child will appreciate, value and respect the many aspects of his/her own culture as well as that of others.

Intellectual Empowerment – a child who is a critical thinker and an independent learner. The child will be aware of how to gather, process and use information to solve problems and also to understand what happens in the wider environment.

Respect for self, others and the environment – a child who respects self, others and the environment. The child understands the difference between acceptable and unacceptable behaviours; is able to express empathy for others and build positive, respectful relationships with others; the child shows concern for the environment.

Resilience – a child who has coping skills. The child will show persistence with challenging tasks, take risks and use acceptable social skills to cope with difficulties.

Children are likely to achieve the above qualities or learning outcomes by the end of the preschool stage if their environment provides activities

and experiences that support such development over time. The adults who are an important part of the environment, whether at home or school, must be sensitive to the developing needs of the young children for whom they provide care and guidance. In the case of day care, children perhaps spend more of their waking hours within centres than at home. What is even greater concern is that within a 10-12-hour day, each child is cared for by at least two different caregivers. At home, time for interactions with mothers is limited before the children are put to bed. It is the caregivers rather than the parents who are more likely to notice the emerging developmental changes in the child. *This is why it is crucial for caregivers to **observe** each child closely and keep a continuous **record** of his/her progress in the various domains of development.*

This curriculum for infants and toddlers focuses on the development of the skills that children are capable of learning at this stage of their development. It represents a set of interactive activities based on knowledge of child development; that is, observing what the child can do now and knowing what the next step is. Caregivers' strategies should reinforce each child's present level of development and challenge but should not pressure him or her to move toward the next level (appropriate planning will help to take care of this.). The adults' role is to enhance, encourage, nurture and facilitate by taking cues from the child and by providing the appropriate 'match' of materials and experiences to fit his or her various needs, interests and abilities.

HOW INFANTS AND TODDLERS LEARN

Infants and toddlers are learning all the time. In emotional terms, they are learning that the world is either a caring, responsive, and interesting place or an unloving, neglectful, and frightening one. They are beginning to respond in ways to fit their perceptions or how they feel. The **foundations of emotional development** begin at birth and gradually become less intense after age two.

In the physical and cognitive domains, infants and toddlers are highly efficient little 'learning machines' designed to absorb and classify or sort information. Their brain cells are undergoing an amazing process of wiring. As they make the connections, they identify voices, faces, colours, and shapes, long before they can say a word. A toddler can sort objects by colour or shape or size before being able to say what these are. The **foundations of language development become active** at birth and gradually diminish by age six.

As young as these children are, they are powerfully self motivated to explore and learn at their own pace and through their own means. Learning takes place through their intrinsically motivated activity. No one has to tell them to learn, nor prod them into action. Their own choices and desire for autonomy and initiative take care of that. They learn because they want to. Even the youngest infants make simple choices and decisions all day long. They make choices about what they must look at, whether to reach for an object or whether to continue looking at a book or go for a ball.

In practical terms this means that group-care settings will support young children's development if they provide a variety of safe supportive, challenging and accessible materials for children to explore and manipulate. In such settings the caregivers must support children's preferences and attend to their language development.

Toddlers need language to communicate what they know

The desire to explore and to advance their own learning can only be achieved within the context of a trusting relationship with the primary caregiver. It is very important that children be encouraged to form attachments in group settings. Work rosters can be organized to allow children to interact more frequently with one or two special caregivers consistently throughout the week. Each caregiver will need to work at helping children to form these attachments with them by the loving and nurturing ways that they communicate and interact with the children. Caregivers should use appropriate language to communicate with children at all times, for example to explain what is being done at a particular time, or to describe things or events using language that can be understood by the child. "Baby talk" should be avoided at all times.

Routines provide the best opportunity for individualized interaction between caregiver and child

Routines such as diapering, bathing, and feeding should be much more than a quick task to get out of the way. These periods provide opportunities for caregivers to talk and smile with the children. No child should be made to feel ashamed when accidents occur (e.g. wetting him or herself.)

An infant's bath time should not be rushed. Sensory water plays and floating playthings are mainstays of an infant and toddler programme. Water is soothing; water stimulates play; and the splashing and slapping of water produce interesting reactions. There should be floating toys that the infant can manipulate while the caregiver holds a pleasant conversation with the child. Similarly, feeding time should be pleasant as the caregiver sits with the children and talks about the different food items. Playing, singing, music (percussion instruments), movement, jingles, and rhymes, are the hallmark of a good infant and toddler care programme, following the mantra **“Learning must be Fun”**.

Group activity does not work well for young children

A curriculum for infants and toddlers will naturally take on a unique style, simply because care-giving routines form much of the day's activities. Simply put, every activity throughout the day forms part of the curriculum. The daily schedule should be flexible and organized around the children's physiological schedule. It should focus on the basic activities of sleeping, feeding, toileting and playing. Day care centres tend to organize the daily schedule like schools with short time blocks. This fragments the young children's day, and is not appropriate for infants and toddlers. Young children need simple schedules with large time blocks which fit their developmental needs. In addition each child will have his or her own needs, which will require that the schedule be individualized as far as possible. Whole group activities should be minimized or planned for a few brief minutes only.

Very young children learn best by exploring and manipulating things

Young children have the need to fully explore whatever objects they encounter in their environment. As they focus on a particular object of interest they will “try it out” in a variety of ways – pushing it, feeling it, pulling it, banging it, turning it upside down, tasting it, stacking it. Infants and toddlers learn with their whole body and with all their senses. Children learn through play, repetition and trying out new things, which may be described as risk-taking. Piaget, in his learning theory of child development, describes this as sensory motor activities. Caregivers and teachers of young children must have the patience and wisdom to listen, to watch and wait until the children’s thoughts unfold and become apparent.

The Learning Cycle

The Thematic Curriculum finds full expression in how young children learn

How then can caregivers expose the toddlers to a theme, for example ‘Transportation’? The room should be arranged to reflect the theme in terms of the kind of learning materials provided for the children to have hands-on experiences. Caregivers should not merely “talk about” things related to a theme in a very teacher-centred approach, but should aim instead to ensure that the children can engage in active learning, for example, providing toys with wheels, some with open boxes for the children to put toys in and pull along. Children love toys on wheels because they are easy to manipulate. Caregivers should observe the children’s actions, praise them, and sing songs, for example, “The wheels on the bus”, and introduce words like fast, faster, slow, as the children play with the toy vehicles. The caregivers’ role then is that of facilitator and not that of teacher or director, and they too should enjoy the activities. The curriculum for older toddlers (two- and three-year-olds) is presented in thematic integrated units, similar to the format of the curriculum for four- and five-year-olds.

SOME BASIC GUIDING PRINCIPLES FOR PRACTITIONERS OF INFANTS AND TODDLERS

- Infants and toddlers need to be healthy, well nourished and to have a stimulating environment.
- The first 3 years of life are a critically important stage in child development as this is when the majority of connections in the brain are made. Brain development is promoted when infants and toddlers actively interact with the people and the materials in their environment
- Infants and toddlers need caregivers who understand and value them as individuals and who provide love and attention. This helps them to feel secure and loved and to develop a sense of trust.

- Infants and toddlers need caregivers that are attentive to their needs, their communications and their emerging abilities and skills. They need caregivers to encourage and support them as they interact and explore the social and physical environments
- Infants and toddlers need caregivers who have some knowledge of Child Development.
- Caregivers need to plan to help infants and toddlers learn to help themselves.
- Caregivers and parents should work together in a friendly relationship, and the caregivers should understand that their role is to provide support to families.

When all the guiding principles of this curriculum are practiced – what should young children – Birth to Three years learn? Here are some key experiences that are summarized in High Scope (2006)

- “Developing a sense of self,
- Learning about social relations,
- Learning to hold things in their minds through creative representation,
- Mastering movement and music basic,
- Learning communication and Language Skills,
- Learning about the physical world by exploring objects,
- Learning about quantity and number concepts
- Developing and understanding of space
- Beginning to learn about time”

USING THE CURRICULUM GUIDE FOR BIRTH TO 24 MONTHS

The curriculum for children birth to 24 months emphasizes the development of appropriate skills in the different aspects of a child's development as these relate to the outcomes desired for Caribbean children. Each page of this section of the guide is therefore organized to include:

- › a full column that outlines the developmentally appropriate learning tasks or “**Development Objectives**” for children within a specified age band
- › a full column that suggests “**Practitioner Strategies**” that will promote the emergence and strengthening of a particular skill
- › a small column on “**Preparing for Learning**” to remind the practitioner of how to prepare the learning environment for promoting and enriching the child's learning
- › a small section entitled “**Look, Listen, Note**” with suggestions for how and what to observe in assessing a child's progress
- › a small section entitled “**Involving Parents**” which provides tips for encouraging parents to support their children as well as the day care programme and staff.

The activities and practitioner strategies are arranged in age bands: **birth to 6 months, 6 to 12 months, 12 to 18 months and 18 to 24 months**, with the skills development objectives specified for each of the Learning Outcomes Areas (see page VI). The most important point to note is that the curriculum at this level is very individualized and an infant or toddler can become a part of the learning group at any point along the way. There are no “school term” limitations and boundaries. As the infant or toddler enrolls in a day care programme where this curriculum is in use, caregivers will need to assess at what level of skill development the child is functioning and start the child at the appropriate level that will continue to meet needs and build skills already evident in the various areas of development viz.: physical-motor, language development, intellectual/perceptual, social-emotional.

THE THEMATIC CURRICULUM FORMAT FOR TWO- AND THREE-YEAR-OLDS

The child who is “fully” two years old is introduced to the thematic integrated curriculum format similar to that for the three to five-year-olds’ curriculum guide. Generally, there are two themes to be completed in each term. The suggested duration of a theme is five weeks, based on the standard ten weeks per school term. In the three to five-year-olds’ curriculum guide each theme is further divided into two or more sub-themes with a particular content focus for the time specified. Themes and sub-themes provide developmentally appropriate content related to the thematic focus. The selection of activities is guided by the scope and sequence outlined for the age group and seeks to integrate the development of the relevant skills as children engage in varied experiences and activities. The themes covered for the two- and three- year-olds include:

2-year-olds

Term 1: ME
CELEBRATIONS

Term 2: ANIMALS
FLOWERS

Term 3: BIRDS
WATER

3-year-olds

Term 1: ALL ABOUT ME
CELEBRATIONS

Term 2: FOODS
FAMILY

Term 3: ANIMALS
WATER

The layout of this section of the **Birth to Three is Key** curriculum guide is similar to that of the **Four and Five, Getting Ready for Life** curriculum guide. The layout of the guide is spread across two pages for the practitioner’s easy use at a glance. Each page displays the theme, sub-theme, age cohort and school term. On the left page, arranged in three columns, are **Concepts/Content, Suggested Learning Activities,** and **Vocabulary.** On the right page, also arranged in two columns, are **Practitioner Strategies** which includes **Preparing for Learning** and **Interacting with and Supporting Children.** The second column consists of **Look, Listen, Note** and **Involving Parents.**

The appropriate developmental objectives for each age group as outlined in the Scope and Sequence document, are laid out as an introduction to each school term. They are deliberately not presented within the double-paged layout of the guide so as to avoid any attempt at page by page alignment of objectives with content, concepts, skills and activities. The developmental objectives outlined for a term are consistent with how children develop naturally, as within any term, individual children will achieve the different objectives at different points in time, and participate in a different set of activities from other peers.

It is important to remember that while this curriculum attempts to provide a comprehensive programme for children, it is by no means “all-inclusive”. Indeed, the practitioner is encouraged to make additions and adjustments as she or he becomes more familiar with working with the themes, and consideration is given to factors such as variation in learning environments, availability of materials and resources, parent and community involvement, number of children in the group and so on. The practitioner is therefore encouraged to use this document as a guide for planning and not as the plan itself.

Concepts/Content

This section suggests theme-related content/concepts that are appropriate for the age group. Content/concepts should be focus for a specified period, e.g. one, two or three weeks, is determined by the practitioner while using the subthemes. The practitioner will draw information from this section in working out a weekly plan. The information as presented in the column is **not intended** to be “**taught from top to bottom and from page to page**”. Content information is only provided to ensure that accurate facts are presented to children by the practitioner in learning about different topics. Once the content and related concepts have been introduced to children, practitioners should use every opportunity to repeat and reinforce this information since children learn best when they hear, see and do things over and over again.

Suggested Learning Activities

The activities suggested in this section are specially selected for their potential to expose children to experiences that will help them to learn new concepts and develop a wide range of skills, e.g. motor, cognitive, or social-emotional. Emphasis is placed on early literacy and numeracy activities for which a strong foundation is necessary, given the problems related to these areas in the wider society. In planning weekly activities, practitioners should aim to provide variety in the kinds of experiences children have. They must aim to provide balance in integrating

skills from the intellectual/perceptual, aesthetic/creative, social-emotional and psychomotor areas into the carefully chosen activities included in each planned unit. Practitioners should also be creative in adding appropriate and interesting activities.

Vocabulary

This section simply highlights the new or familiar vocabulary emerging from the themes and sub-themes. Children will be encouraged to learn and use new words which the practitioner will continue to reinforce in daily verbal interactions.

Practitioner Strategies

Preparing for Learning

This section suggests specific tasks and precautions that the practitioner can undertake in order to provide a safe, stimulating and enriching learning environment for the children. It involves being resourceful in making and /or sourcing materials that are needed for a particular thematic unit.

Interacting with and Supporting Children

This section relates mostly to the affective elements of the curriculum. The emphasis is on the ways the practitioner can promote positive self-concept and self-esteem in children and help them to develop positive and pro-social attitudes and values. It requires practitioners to individualize interactions with each child, with particular attention to children's social-emotional and special needs. It is important to note that suggestions in this column might appear only once, but should always apply to every day experiences. This section is intended to foster children's active learning rather than 'teacher-directed' learning.

Look, Listen, Note

In this section, suggestions are provided for what to observe and monitor in assessing children's progress. The assessment suggestions are related to the concepts, content and skills emphasized in each unit plan. Practitioners are encouraged to use a variety of assessment procedures to monitor children's progress, to include checklists, rating scales, observations and recording anecdotal comments

Involving Parents

This section provides suggestions for how practitioners might involve parents in supporting their children's learning both at home and at school. Parents are also provided with simple and useful tips on how to deal with specific issues or promote development of specific skills in their children.

<p>Motor Development</p> <p><i>If provided with the appropriate environment babies will</i></p> <ul style="list-style-type: none"> › continue to have strong desire to do things on their own, e.g. drink from a cup, dress/undress › enjoy parallel play › need to be prepared for change › continue to display preference for routines › show preference for those around them, e.g. favour attention from particular practitioners 	<ul style="list-style-type: none"> › Provide opportunities for young children to do things for themselves, e.g. feed self using fingers, fork and spoon; avoid doing everything for them, e.g. hold cup to mouth for them to drink only if necessary › Provide areas and resources for different kinds of play › Prepare and provide daily routines, e.g. meet and receive each child from parent as they arrive, set times for wash-up, snack, play › Provide transitions when possible; prepare children for any change(s) of daily routine; let children know what will be done before the time › Continue relationship with children and move from one stage to the next, e.g. from infants to toddlers 	<p>Preparing for Learning</p> <ul style="list-style-type: none"> › Supervise carefully when mixed age groups are allowed to play in common area in order to avoid accidents and encourage safe interactions › Prepare and plan daily programmes with other practitioners › Prepare for and provide stories, pictures and puppets which allow children to experience and talk about feelings and preferences. Say “sorry” when necessary › Consistently use social words in their correct context, e.g. when requesting an item repeat the request and say “please” <p>Look, Listen, Note!</p> <ul style="list-style-type: none"> › Observe and note as children play by themselves or with others; note how they share, negotiate, and solve different situations <p>Involving Parents</p> <ul style="list-style-type: none"> › Encourage parents to be patient and allow their child to do things for him or herself › Inform parents of daily routine so they can prepare child for what to expect

18 to 24 MONTHS

COMMUNICATION

DEVELOPMENTAL OBJECTIVES	Practitioner Strategies	Preparing for Learning
<p>Language Development</p> <p><i>If provided with the appropriate environment babies will</i></p> <ul style="list-style-type: none"> › show interest in texture, shapes, size, colour of objects › point to and name at least three body parts › know more words, use words to make wants known; make three-word sentences › understand “me,” “you,” › carry out simple instructions › imitate adult tone of voice and speech › enjoy listening to simple stories, especially with repetition › look at and picture-read books › imitate up and down writing strokes 	<ul style="list-style-type: none"> › Look at each children as you talk often with him or her; provide correct words, descriptions and clues; engage children in conversation about things, events and people in the environment, community, inside and outside; provide words and phrases when children point; avoid “baby-talk” › Ask children to help with simple tasks, e.g. put away playthings, help with clean-up; give instructions simply and courteously; listen and respond with expression when each child seeks attention › Use storybooks, pictures, puppets, etc. to tell stories to young children every day › Provide, look at, talk about picture-books, pictures, charts, posters with children › Allow children to scribble and draw, make pictures; use different materials and surfaces 	<ul style="list-style-type: none"> › Collect and provide a variety of interesting materials that will attract children’s attention and curiosity › Provide picture and story-books, pictures, posters, charts, big books, toy telephones, cell-phones, etc. › Change around books and materials from time to time › Provide chalk, paints, jumbo markers and crayons, different kinds of paper, chalkboard, easel › Encourage children and praise them for their efforts <p>Look, Listen, Note!</p> <ul style="list-style-type: none"> › Listen and note what children say as they begin to use new words, ask questions, make sentences, show understanding › Observe, listen, note as children communicate with others in play <p>Involving Parents</p> <ul style="list-style-type: none"> › Encourage parents to talk a lot with their child

18 to 24 MONTHS

INTELLECTUAL EMPOWERMENT

DEVELOPMENTAL OBJECTIVES	Practitioner Strategies	Preparing for Learning
<p>Cognitive Development</p> <p><i>If provided with the appropriate environment babies will</i></p> <ul style="list-style-type: none"> › follow two-step directions › use same word for similar objects › match pictures and objects › identify some animal sounds › take things apart and try to put them together › solve simple problems, e.g. climb on chair to reach high object, remove an obstacle out of their way › point to big or little object › sort objects by at least one characteristic, e.g. size, colour, shape, etc. › understand the meaning of '2' › identify, point to, name familiar things such as dog, ball, baby from book being read › become more adventurous in their explorations 	<ul style="list-style-type: none"> › Play interactive activities and games, e.g. Simon says... › Provide frequent opportunities for talking, questioning, etc. › Provide stimulating materials so children can sort, stack, repeat/copy, respond, sequence, build, take apart and put together, classify, categorize, make choices, show preferences › Along with the children, investigate their immediate environments, e.g. when outside, talk about the goats coming into the play area; describe objects, people, events › Use everyday experiences to help children count and focus on patterns, shapes, sizes, colours › Invite children to focus on pictures and meaningful print, e.g. each child's name, words/signs in the environment, observe similarities and differences in symbols and signs 	<ul style="list-style-type: none"> › Create spaces and opportunities for quiet and noisy play alone or with others › Collect and provide a variety of everyday objects, e.g. pots and pans, spoons, cones, containers and lids, boxes, dress-up materials and accessories › Organize activity areas including areas for small-group play (home corner), being alone play (book corner or tabletop area), messy and creative activities (art, water, dress-up and pretend play) <p>Look, Listen, Note!</p> <ul style="list-style-type: none"> › Observe and note as each child explores and interacts with different materials, solves problems, creates new situations › Observe and listen as each child responds to questions and situations <p>Involving Parents</p> <ul style="list-style-type: none"> › Exchange information with parents about what their child is doing

18 to 24 MONTHS

VALUING CULTURE - AWARENESS OF CULTURAL FORMS

DEVELOPMENTAL OBJECTIVES	Practitioner Strategies	Preparing for Learning
<p>Social/Emotional Development</p> <p><i>If provided with the appropriate environment babies will</i></p> <ul style="list-style-type: none"> › have a greater awareness of self › enjoy dress-up and pretend play › listen to stories for a short while and do some actions from the story › imitate the actions of those they see around them in activities, including dancing › enjoy music and movement, songs, jingles, rhymes 	<ul style="list-style-type: none"> › Display pictures of the children and their families; read books to children, look at pictures and talk about different families › Provide at least one mirror and opportunities for dressing up in clothes and materials from different cultures › Read stories daily; take the children for walks around the neighbourhood; share and talk about recorded or video-taped cultural activities; participate in music and movement and cultural activities with the children 	<ul style="list-style-type: none"> › Plan with other practitioners and celebrate a Jamaica theme; provide objects of national and cultural importance, e.g. food, flag, pictures of local sites such as seaside, riverside, mountain; objects such as shells, money, etc. › Make collection of songs, jingles, rhymes, local and folk stories
		<p>Look, Listen, Note!</p> <ul style="list-style-type: none"> › Observe, listen, note children's interests and preferences in songs, stories, cultural objects, etc. and family practices
		<p>Involving Parents</p> <ul style="list-style-type: none"> › Invite parents and grandparents into the day care centre to teach the children songs, share stories and show how they prepare local foods, e.g. coconut drops, dip an' fall back, grater cake, stamp an' go › Organize a parents' evening/concerts

18 to 24 MONTHS

RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT

DEVELOPMENTAL OBJECTIVES	Practitioner Strategies	Preparing for Learning
<p>Social/Emotional Development</p> <p><i>If provided with the appropriate environment babies will</i></p> <ul style="list-style-type: none"> › show desire to be independent and do things by self › try to comfort others in distress › play by self for increasing period of time › become aware of how others feel about them, e.g. through adult tone, voice, manner, treatment › imitate the behaviours of adults and those around them; role-play family roles › express strong feelings and preferences › enjoy looking at self in mirror 	<ul style="list-style-type: none"> › Provide children with choices; encourage them to do and get things for themselves › Encourage children to treat each other gently and to value what they and others do; show children how to care for and respect each other › Create spaces and opportunities for quiet and noisy play, lone and group activities › Encourage children to participate in making rules › Encourage children to make decisions about who to sit with, which corner to play in, which picture to display, etc. › Provide at least one mirror; allow children to look at self in mirror and identify and name parts of the body, e.g. "These are my two eyes, My two eyes, I see with my eyes, with my little eyes › Provide percussion instruments for children to sing and make music 	<ul style="list-style-type: none"> › Organize learning centres so that children are able to share materials and do their own leaning › Arrange for daily outdoor activities and play; schedule transitions in order to get ready for activities › Provide each area/centre with adequate amount of materials <div> <p>Look, Listen, Note!</p> <ul style="list-style-type: none"> › Observe and note how each child joins in or avoids group play/activity › Note how each child explores, plays, socializes and makes sense of experiences on own or with others </div> <div> <p>Involving Parents</p> <ul style="list-style-type: none"> › Make parents feel welcome at their child's day care centre </div>

18 to 24 MONTHS

RESILIENCE - KEEPING SAFE AND LEARNING TO COPE

DEVELOPMENTAL OBJECTIVES	Practitioner Strategies	Preparing for Learning
<p>Social/Emotional Development</p> <p><i>If provided with the appropriate environment babies will</i></p> <ul style="list-style-type: none"> › express preference for some people and things over others › respond to being comforted by primary caregiver › display different responses for moods, feelings and needs › use crying to alert adult › comfort self in different ways, e.g. suck a thumb or pacifier › enjoy skin-to-skin contact 	<ul style="list-style-type: none"> › Provide a predictable environment and routines where children feel safe › Respond to each child with care and talk comfortingly; show understanding of each child's preference for a particular practitioner › Provide stories, pictures and puppets that can allow children to experience and talk about different feelings, moods and needs › Respond promptly and appropriately to young children's cries and vocalizations › Provide opportunities for physical closeness, holding and touching, affection 	<ul style="list-style-type: none"> › Plan and provide a daily schedule › Keep to routines as much as possible and prepare children for changes › Conduct a daily check of the learning environment for resources that need to be repaired, materials to be replaced, areas to be cleaned › Allow preferred practitioner to stay with group of children <div> <p>Look, Listen, Note!</p> <ul style="list-style-type: none"> › Observe and note the way in which each child responds to different people and situations › Note how each child calls attention to self </div> <div> <p>Involving Parents</p> <ul style="list-style-type: none"> › Discuss with parents how their child responds to activities, practitioners and other children </div>

For Two-Year-Olds

2-YEAR-OLDS

Term 1

Developmental Objectives

WELLNESS (Motor Development)	COMMUNICATION (Language Development)	VALUING CULTURE (Social/Emotional Development)
<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Co-ordinate gross motor movements, e.g. kick, climb, run, jump, rough and tumble play › Manipulate objects with hands and fingers, e.g. locks, zipper, play dough, crayons › Share play materials 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Identify objects by words or gestures › Name familiar objects, parts of the body; tell own name › Participate with adults in interactive games and songs › Listen attentively for short periods › Speak in short sentences and use plurals › Ask questions, especially “why?” › Follow simple directions › Repeat simple rhymes 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Enjoy make-believe play › Imitate familiar local and cultural experiences, e.g. saying grace before meal › Demonstrate sharing and caring for others › Experience cultural representations, e.g. Christmas time in Jamaica

2-YEAR-OLDS

Term 1

Developmental Objectives

INTELLECTUAL EMPOWERMENT (Cognitive Development)	RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT (Social/Emotional Development)	RESILIENCE (Social/Emotional Development)
<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Discriminate between at least two different textures, tastes, sounds, smells, shapes, sizes, colours of objects › Understand numeral and non-numeral concepts, e.g. one, two, up/down, in/out, long/short, round, etc. › Demonstrate an understanding of one-ness and two-ness › Sort shapes, e.g. circle, square › Identify foods with different tastes, e.g. sweet, sour 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Begin to learn how to cope with emotions, e.g. happy, sad › Begin to show interest in and care for others › Begin to respect routines and schedules › Begin to display good health practices 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Demonstrate confidence and take risks if encouraged › Begin to learn to accept change › Begin to identify children who are sad

2-YEAR-OLDS

Term 1

THEME:

ME

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › Some children are girls and some are boys › I am a girl/I am a boy › I have a special name; we all have names › Each boy and girl has one body with many parts – big parts and little parts › I have one body <p>One head with a face Two eyes, one nose One mouth, two ears, Two arms, two hands, two legs, two feet, Many fingers and toes</p>	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › identify girls different from boys in the group, in pictures, in books; use girl's only and boy's only groups sometimes in indoor and outdoor activities › play games to tell their own name and learn the names of other children in the group › identify and name some parts of the body › distinguish between one and two body parts, e.g. one nose, two ears; one tongue and one mouth; (fit together a three-piece puzzle of the body) › use legs and feet to do large movements › participate in simple songs, poems and jingles about the human body; share stories about the body, e.g. Here are my two eyes, my two eyes, I see with my eyes, my little eyes. 	<p>girl boy name ears nose leg mouth eyes</p> <p>tongue hands feet one circle</p>

2-YEAR-OLDS

Term 1

THEME:

ME

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <ul style="list-style-type: none"> › Arrange room to reflect the theme › Provide appropriate materials for children's use in free play sessions, e.g. male and female dolls, puzzles, table manipulatives, water and damp sand, housekeeping play items; dress-up clothes, life-size cardboard dolls for dressing, undressing and naming body parts › Provide at least one full-length mirror › Provide pictures, charts, stories, puppets (box or paper bag), songs, poems relevant to the theme 'ME' › Provide materials for gross and fine motor development › Provide materials for sensory experiences using body parts <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Warmly greet each child by name each day and make at least one positive comment about him or her; use name tags for easy recognition of each child; practise using children's given names › Adapt activities as indicated for children with special needs › Conduct daily health checks › Avoid stereotyping of boy/girl activities 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - differentiate girls from boys? - respond to his or her name? - say his or her name? - tell names of at least three other children? - identify and name three or more body parts? - point to a circle on request? - indicate one item? <p>INVOLVING PARENTS</p> <ul style="list-style-type: none"> › Greet parents warmly; encourage parents to share as much information as possible about their child; find out if each child has a pet name at home? › Ask parents to reinforce concepts learned at school in activities at home e.g. boy, girl, one ear › Encourage parents to engage boys and girls in similar activities at home and talk with them equally.

2-YEAR-OLDS

Term 1

THEME:

ME

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › My body parts help me to do many things › I see many things with my eyes › I smell with my nose › Things have different smells; I like some smells and I do not like others › I taste with my tongue › Some foods are sweet and some are sour › I talk with my mouth 	<p><i>Children will engage in a wide range of activities in which they can</i></p> <ul style="list-style-type: none"> › interact with objects of different colours, shapes and sizes; place emphasis on big and little › use jumbo crayons or paint brushes freely to make their own representations/creations of “ME” › experience and talk about the smell of different things › differentiate between sweet tastes and sour tastes › learn to say a short grace before meals › ask and answer questions and talk freely about things they see, hear, taste and smell 	<p>big little</p> <p>hear see talk sweet sour</p>

2-YEAR-OLDS

Term 1

THEME:

ME

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <ul style="list-style-type: none"> › Have all necessary learning materials ready ahead of time › Choose activities that are short and consider children's short attention span › Provide materials to produce different sounds, e.g. loud sound and soft sound › Provide a variety of objects for children to sort and interact with during free and guided play times to reinforce the concepts being learned › Arrange room to reflect theme <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Be patient with children and listen to them › Respond to each child with respectful and caring attitude › Adapt activities appropriately for children with special needs › Encourage children to taste new and different foods, and reinforce saying grace before meals › Keep children busy – an activity period followed by a quiet period › Demonstrate due care in a tasting activity 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - identify big and little? - identify smells they like or don't like? - identify sweet from other tastes? <ul style="list-style-type: none"> › Children can collect a bag of the things they like to smell or taste <p>INVOLVING PARENTS</p> <ul style="list-style-type: none"> › Ask parents to collect and supply some of the required teaching aids, e.g. things of different colours, sizes, shapes; small plastic jars for different scents › Ask parents to provide a few snacks that are sweet and some that are sour › Ask parents about foods their child may be allergic to

2-YEAR-OLDS

Term 1

THEME:

ME

FLOWERS

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <ul style="list-style-type: none"> › Collect the different stimulation materials to motivate the children into action › Divide flowers into natural and artificial for the learning centres › Identify in Resource Book the relevant jingles, rhymes, poems, songs, etc. Make up some if none can be found › Create a learning environment to stimulate happiness › Pay attention to the Developmental Objectives, e.g. scribbles to develop fine motor skills <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Provide safe outdoor environment for children to fly like birds and butterflies › Provide equal opportunities for all to participate; pay attention to the individual child › Help children to express their feelings 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - draw circles and straight lines to represent flowers on stems? - sort and name colours as they play with real and artificial flowers? - talk about the taste of honey? - display an interest in flowers by voluntarily watering the flowers in their garden? <p>INVOLVING PARENTS</p> <ul style="list-style-type: none"> › Ask parents to participate in their children's activities by taking them to a park or public garden and talk with them about the plants and flowers seen › Encourage parents to talk with their children about brightly coloured pictures of flowers › Remind parents to listen when the children are expressing their views

2-YEAR-OLDS

Term 3

Developmental Objectives

WELLNESS (Motor Development)	COMMUNICATION (Language Development)	VALUING CULTURE (Social/Emotional Development)
<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Catch and throw large balls, climb ladders; use slide and other outdoor equipment; ride a tricycle; climb stairs › Assemble simple large puzzles more confidently › Copy simple shapes › Begin to practise safety habits 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Continue to express self in short sentences › Know and use own names › Enjoy fantasy and nonsense or funny words › Begin to use pronouns, e.g. I, you, me › Use plurals and some adjectives, e.g. pretty birds › Begin to enjoy more interactive play with other children › Enjoy read-along stories, rhyme games and songs › Continue to ask many questions 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Respond with greater coordination to different musical beats and rhythms; imitate songs and music played by the media › Begin to imitate behaviour related to religious and cultural practices, e.g. say prayers › Indulge in role play and pretend play

2-YEAR-OLDS

Term 3

Developmental Objectives

INTELLECTUAL EMPOWERMENT (Cognitive Development)	RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT (Social/Emotional Development)	RESILIENCE (Social/Emotional Development)
<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Repeat newly learnt words and names related to birds › Begin to make demands using the concept ‘now’ › Manipulate different media with greater awareness of shapes, form and texture › Demonstrate greater hand eye coordination, e.g. copy simple shapes, make block constructions, assemble puzzles of more than 3 pieces › Talk about differences in smells, textures, shapes, sizes › Sort objects according to shape, size › Discriminate primary colours › Develop longer attention span › Enjoy creative activities, e.g. draw, paint, construct › Repeat nursery rhymes, jingles, poems from memory › Ask “why” questions repeatedly 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Model how to treat others by observing those familiar to them › Explore a wider range of play themes based on new experiences › Begin to anticipate what might happen when actions are taken 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Continue to follow routines and schedules › Demonstrate increasing self-control › Recognize own limits › Co-operate and share with others but still with some difficulty

2-YEAR-OLDS

Term 3

THEME:

BIRDS

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › Birds are alive › Birds can move, eat, sleep, breathe › Birds have feathers, wings, beaks, tails, legs, eyes, › Most birds can fly; some birds can walk, run or hop; some birds can swim › Birds make loud or soft sounds 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › display pictures or cut-outs of birds in the learning centre › watch birds indoors and outdoors; describe what they see the birds doing, e.g. eating, drinking water, flying, walking, hopping, swimming › do bird puzzles –fit different parts of the bird together; examine pictures of birds created from shapes e.g. triangle, circle, square; match triangular and circular cut-out shapes to large pictures of bird beaks and eyes; throw and catch bird-shaped beanbags › dress up in bird masks and imitate bird movements, e.g. flying, walking, running › listen to bird sounds on tape or outdoors; imitate sounds in loud and soft voices; say and do finger plays, sing songs e.g. “Two Little Blackbirds” 	<p>alive breathe feathers wings beaks tails hopping swimming drinking flying mask</p>

2-YEAR-OLDS

Term 3

THEME:

BIRDS

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <p>Prepare the room to reflect the theme, using</p> <ul style="list-style-type: none"> - large, colourful pictures of different birds, bird mobiles, videos/DVDs of birds flying, eating, swimming etc - bird puzzles –3 to 5 pieces, to be assembled into whole bird; cut out circle and triangle shapes for matching with beaks and eyes - bird-shaped bean bags for throwing and catching - props, e.g. bird masks with beaks, eyes, bird wings, tails (construction paper or other appropriate materials) - tape recorded bird sounds –loud and soft - tape recorded finger plays, rhymes, songs about birds - pet bird(s) in a cage for observation <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Model SJE language patterns for children to imitate in speech › Show patience in allowing children to express themselves and to respond to and ask questions about birds › Acknowledge each child's contribution to discussions 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - talk freely about birds they know? - contribute to discussions about birds? - fit a bird puzzle together without help? - match shape cut-outs to birds' eyes and beaks? - throw/catch a bird bean bag? - demonstrate how birds move? - imitate soft and loud bird sounds? - join in songs and rhymes about birds? <p>INVOLVING PARENTS</p> <ul style="list-style-type: none"> › Seek parents' help to <ul style="list-style-type: none"> - collect pictures, make mobiles, puzzles, beanbags of birds, cut out circle, triangle shapes, bird masks, wings, tails for dressing up props - lend one or more pet birds for the duration of the theme - encourage parents to bird watch with their children at home and stimulate children's interest in talking about birds' appearance and activities, etc

2-YEAR-OLDS

Term 3

THEME:

BIRDS

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › There are many kinds of birds, e.g. chickens, ducks, parrots, pigeons, › Some birds are big, and some birds are small › Birds have different colours such as red, blue, yellow, › Some birds have one colour, e.g. yellow › Some bird feathers have more than one colour, e.g. blue and yellow 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › select large pictures of birds from books in the room › look at the large, colourful pictures of birds; point out the different parts of the bird; use singular and plural forms, e.g. one bird, two birds, arrange toy birds or pictures of birds according to size of birds, large to small › listen to read-along stories about birds › identify and name colours of birds they see in pictures, in cages, outdoors; point out birds with one colour and birds with more than one colour. › observe the number of birds in cages, in trees, in the yard; sort picture cards of birds by their colour; colour bird pictures 	<p>chickens ducks parrots pigeon doctor bird</p>

2-YEAR-OLDS

Term 3

THEME:

BIRDS

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <p>Provide:</p> <ul style="list-style-type: none"> - real bird in a cage - large, colourful pictures and picture books of birds, picture cards showing birds of different sizes - crayons, paints, markers of a variety of colours, paper <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Use verbal and non-verbal strategies such as appropriate voice tone and volume, eye contact, facial expression, body language to encourage children's willingness to participate › Record observations of individual children's progress or delay in order to respond and plan appropriately to support their developing skills › Allow children to interact with materials and do their own learning 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - use singular and plural forms in speech e.g. one bird, two birds? - identify and name at least three colours accurately? - discriminate between long and short objects? <p>INVOLVING PARENTS</p> <p>Ask parents to</p> <ul style="list-style-type: none"> › take photographs of flamingo at the zoo to facilitate making of bird posters › lend pet birds in cages › help to make picture cards and lacing cards <p>Encourage parents to</p> <ul style="list-style-type: none"> › help children to overcome any fear of birds by exposing them to birds and engaging in bird-watching with them

2-YEAR-OLDS

Term 3

THEME:

BIRDS

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › Birds live in different places, e.g. nests, trees, cages, water › Ducks live in water most of the time › Look at pictures and share stories of birds that live in water › We keep some birds as pets; pet birds live in cages › Cages are shaped like a circle or a square › Many birds live and make their nests in trees; birds' nests are made from grass and twigs; some bird's nests are big and some are small 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › interact with the materials using their sensory motor skills › listen to stories about birds and their homes; wear teacher-made beaks, wings and tails and imitate birds living in a cage (made from large cardboard box) › examine the shapes of bird cages; use finger to trace around sandpaper circles, squares, › help practitioner with class project to create a large "pretend" bird nest from clean, dry grass cuttings; set large papier-mâché bird (made by practitioner and parents) in the nest › use magnifying glass to observe a real bird nest in the discovery centre 	<p>nest cage grass twigs</p>

2-YEAR-OLDS

Term 3

THEME:

BIRDS

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <p>Arrange room to reflect the theme, using</p> <ul style="list-style-type: none"> - pictures of bird homes, e.g. tree, cage, nest, container with water - real cage, cuckoo clock (if available), real nest - dramatic play props for bird play: masks with beak, tail, wings - sandpaper shapes-circle, square - large cardboard box cut to look like a bird cage - stories about birds that live in water - clean, dried grass, colourful papier-mache' bird <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Encourage children who are “solitary” players to engage in more cooperative play with others, e.g. in preparing the bird nest project › Encourage children to interact with the materials provided 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - listen attentively to a short “bird” story? - trace around sandpaper cut-out shapes and identify the shapes, e.g. circle, square? - contribute to making the large bird nest? <p>INVOLVING PARENTS</p> <p>Ask parents' help to</p> <ul style="list-style-type: none"> - find a cuckoo clock, a bird cage, a bird's nest - make props for dramatic play, e.g. bird masks, etc - make sandpaper circles, squares - prepare the cardboard bird cage - source clean, dried grass to make large nest - make a large papier-mache' bird for the 'Nest' project

2-YEAR-OLDS

Term 3

THEME:

BIRDS

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › Birds eat seeds, crumbs, fruits, e.g. berries, mangoes, corn and rice grains › Birds also eat worms and small insects such as bugs › Birds use their beaks to pick up their food 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › use plastic clothespins to pick up small objects, imitating a bird's beak picking up food; release objects into a container › observe birds eating in their cage or outdoors; look closely at sealed display of food that birds eat, e.g. bugs, worms, seeds, corn, rice, berries etc.; touch each item › help to make bird feeders to hang outside and watch birds feed ; sing songs, say poems, e.g. "Little birdie in the tree, please come down and eat with me" › use playdough to make "worm" shapes; count number of worms made; add to Nest Project; give one playdough worm to each of five toy birds or pictures of birds › observe glass jar with insects and worms that birds eat › use finger paints, crayons to make own drawings of birds and things birds eat 	<p>crumbs fruits berries mangoes corn grains worms bugs</p>

2-YEAR-OLDS

Term 3

THEME:

BIRDS

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <p><i>Provide the following materials for children to see, touch and explore</i></p> <ul style="list-style-type: none"> - plastic clothespins, small containers with small items for picking up and dropping - sealed display of objects that birds eat - collection of songs, rhymes, finger plays - glass jar with worms, insects that birds eat - items to make a bird feeder - playdough, finger paints, crayons <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Have fun with children as they explore the materials in the room › Stimulate children's curiosity and observation skills by talking with children as they interact with the materials 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - manipulate plastic clothespin to pick up and release small items into a container? - contribute to making a bird feeder? - sing songs, say simple rhymes and verses? - make playdough worms ? - create a bird picture with finger paints or crayons? <p>INVOLVING PARENTS</p> <p>Encourage parents to</p> <ul style="list-style-type: none"> - contribute to collecting plastic clothespins for children's use at school - give their children clothespins at home to practise their fine motor skills - help to make the bird food display panel

2-YEAR-OLDS

Term 3

THEME:

WATER

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › Rain gives us water › Water can be found in many places › Clean water is clear › Playing in water is fun › We must not play in dirty water › Water makes dirty things clean; we use water to bathe ourselves making us clean 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › look at pictures, videos of bodies of water; assemble 3- to 5 piece puzzles showing water › Have children pour water in various shaped containers. Use the word clear to describe the appearance of clean water › wash toys, identify when the water is dirty and needs changing › bathe dolls; provide them with real items such as a wash rag, a towel and a comb › mix water with different materials, e.g. flour, sugar › paint with coloured water using spray bottles, brushes 	<p>water rain clean clear pour</p>

2-YEAR-OLDS

Term 3

THEME:

WATER

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <ul style="list-style-type: none"> › Display large pictures of different water scenes › Provide a range of outside water activities for children to engage in › Provide a variety of water toys, equipment and containers for children to use in water play <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Ensure children are properly supervised › Encourage those who are afraid of water; reassure where necessary and never force a child to take part in an activity with which he or she is not comfortable 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - follow instructions? - take part in the activities freely? - assemble puzzles with or without help? - demonstrate how to properly wash objects, and bathe a doll? - pour water from various containers? <p>INVOLVING PARENTS</p> <p>Encourage parents to</p> <ul style="list-style-type: none"> › create opportunities at home to involve children in water play › provide a variety of containers and equipment for outdoor water play

2-YEAR-OLDS

Term 3

THEME:

WATER

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › Some animals love playing in water › Most animals drink water › People and animals need water to live › We use water to make drinks of different colours and tastes, e.g. lemonade, fruit juices › Water put on stove in a pot will get hot › Hot water can burn you 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › listen to and do action songs, jingles and finger plays about water; where possible use familiar tune to make up songs › encourage children to identify animals that love to play in water. › taste different drinks made with water › listen to stories about water 	<p>drink live lemonade hot burn</p>

2-YEAR-OLDS

Term 3

THEME:

WATER

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <ul style="list-style-type: none"> › Prepare the learning environment to reflect the theme › Provide plastic basins for water, plastic dolls, dolls' clothing, rags, water for drinking, food colouring, fruit-flavoured drinks › Provide a variety of water toys, equipment, pictures and containers for children to explore <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Encourage children to hold toy in the water as they talk about water › Constantly use the correct language structures while interacting with the children › Provide a range of activities for children to do their own learning about water 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - follow simple instructions? - join in the songs, jingles? - talk freely about water? <p>INVOLVING PARENTS</p> <p>Encourage parents to</p> <ul style="list-style-type: none"> › Encourage parents to use the appropriate language structure children should be using when dealing with them at home › Encourage parents to provide a variety of opportunities for children to explore and experience the joys of water

2-YEAR-OLDS

Term 3

THEME:

WATER

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › Water makes things move › Some things float in water and some things sink › We can pour water from one container to another › We can have fun in water › River water 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › examine objects that are placed in a basin of water; name objects that float and those that sink › pour water from one container to another; use the words full and empty › listen to the story “A day at the beach” 	<p>float sink pour river full empty</p>

2-YEAR-OLDS

Term 3

THEME:

WATER

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <ul style="list-style-type: none"> › Provide a wide range of pictures and storybooks about water for children to observe and talk about › Provide materials that can float or sink in water › Provide props for role playing of ‘A day at the beach’ › Provide containers for pouring water <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Listen to and respond to the children’s questions › Give them enough time to express themselves › Encourage them to use their names when referring to themselves › Allow children to interact with materials and make their own discovery 	<p><i>Observe and note each child’s performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - use the words sink and float appropriately? - identify objects that sink and those that float? - fill and empty a container independently? <p>INVOLVING PARENTS</p> <p>Encourage parents to</p> <ul style="list-style-type: none"> › provide child with towel and the necessary items needed to role play ‘A day at the beach’ › provide children with the opportunity to practise concepts such as full and empty as they play

2-YEAR-OLDS

Term 3

THEME:

WATER

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › Water can drip › Water can flow › Rain will make water flow on the roads › Rain comes from the clouds in the sky › Rain helps to make plants grow › Rain makes the place clean; it washes away the dirt and dust 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › listen to the story of Noah and the Ark on tape (simple version); show pairs of animals going into the ark (improvised) › have cut-outs of animals › play the game “jump over the river”, by jumping from red paper on one side, over blue paper in the middle to yellow paper on the other side › join in and do action songs on rain › talk about why we need rain; say “Thank you, God, thanks for rain” › use crayons, paints, markers to draw and represent rain on paper › water the plants with containers 	<p>flow drip clouds sky grow</p>

2-YEAR-OLDS

Term 3

THEME:

WATER

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <ul style="list-style-type: none"> › Have the story and the props needed for presenting the story › Select a variety of poems /jingles about rain to use with the children › Identify where the game will be played; ensure there is adequate space for children to jump › Provide paints, markers, crayons, paper <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Give children the necessary encouragement needed to play with animals and put them in twos › Provide help as needed to play the game 	<p><i>Observe and note each child's performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - show cut-outs of two animals? - take part in the game? - repeat poems/jingles taught? - tell one good thing that rain does? <p>INVOLVING PARENTS</p> <p>Encourage parents to</p> <ul style="list-style-type: none"> › read /tell stories on a regular basis to children › help children to identify and count small number of objects › teach children poems, jingles, songs about water

2-YEAR-OLDS

Term 3

THEME:

WATER

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › We cannot live without water › Water comes from rain, rivers, sea › Some animals live in water, e.g. fish, crabs, frogs › We must not waste water e.g. leave the tap running after use › Rain is precious; we like the feel of rain, the smell of rain › We like the sound of rain- ‘Pitta patta go the rain drops’ › Bubbles are made from soap and water 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › take part in a medley of rhymes about water, e.g. Down by the bay; Doctor Foster; Five little speckled frogs; It’s raining, it’s pouring; Whether the weather; The ants go marching › play group game while singing Row, row, row your boat (one child holds a large or medium sized plastic boat while moving like a water animal; at the end of the song the boat is passed on to another child who will move like another animal) › talk about turning off taps after use › tell stories about experiences with rain; describe the feel and sound of rain › pretend to make rain by passing water through colanders and strainers; use percussion instruments to effect sound. › watch and listen to the rain; play hide and seek during this period of time › jump around and pop bubbles as teacher blows bubbles › blow their own bubbles 	<p>river sea fish crabs bubbles soap</p>

2-YEAR-OLDS

Term 3

THEME:

WATER

PRACTITIONER STRATEGIES	LOOK, LISTEN, NOTE
<p><i>Preparing for Learning</i></p> <ul style="list-style-type: none"> › Select and tape the set of rhymes, poems › Prepare the solution and materials needed for bubble blowing › Prepare all the materials needed for the children to “make rain” (putting rice in the lid of a carton box can give the sound of rain when you tilt the lid from side to side) › Posters, pictures, picture cards, books with water animals and water scenes <p><i>Interacting with and Supporting Children</i></p> <ul style="list-style-type: none"> › Encourage children to take part in the medley of poems, songs › Show children how to keep a steady beat with the percussion instruments › Encourage children to find the matching animal pictures 	<p><i>Observe and note each child’s performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> - join in the medley? - Blow and pop bubbles? - take turns? - use percussion instruments? - participate in the game? <p>INVOLVING PARENTS</p> <p>Encourage parents to</p> <ul style="list-style-type: none"> › reinforce concepts taught › involve children in water play › take children on family trips to see various water bodies › help children solve puzzles

For Three-Year-Olds

3-YEAR-OLDS

Term 1

Developmental Objectives

WELLNESS	COMMUNICATION	VALUING CULTURE
<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Co-ordinate movements of the upper and lower limbs and whole body with growing awareness of up/down directions and starting/stopping movements › Improve co-ordination of gross motor skills, e.g. run, jump, kick, climb, push/pull, balance › Respond spontaneously to rhythm, music, other sounds with gestures and movements › Manipulate objects and materials with hands and fingers, e.g. tear, free-paste, playdough, string jumbo beads, build/stack blocks, use peg-boards, sand/water play, etc. › Establish hand preference › Sequence concrete objects › Recognize differences between boy and girl › Talk about their bodies, functions of some body parts, “body rules” and ways of caring for themselves › Begin to display self-regulation and on-task behaviours › Begin to talk about feelings and match them with facial expressions › Begin to explain how things they say or do can have different results 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Hear and understand nearly everything that is said to them (hearing difficulties may become evident at this stage) › Respond when called by name › Recognize common everyday sounds and begin to use understandable speech; use six or more words in a sentence › Follow a simple instruction › Enjoy singing songs, listening to stories and repeating simple rhymes, jingles and fingerplays › Listen and respond to environmental sounds, music, and tape-recorded sounds › Discriminate between different kinds of sounds › Understand that pictures and symbols can represent real objects › Recognize that print has meaning; enjoy looking at books with pictures 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › State general facts about self › Begin to talk about own interests and hobbies › Begin to imitate behaviours related to religious, cultural and national practices › Enjoy expressive activities, singing and dancing › Express interest in similarities and differences between self and others

3-YEAR-OLDS

Term 1

Developmental Objectives

INTELLECTUAL EMPOWERMENT	RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT	RESILIENCE
<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Manipulate, sort and sequence objects using different characteristics › Understand basic concepts of number, size, space/distance, relationship, simple 2-D shapes › Begin to show awareness of time concepts and sequence, and associate these with events › Learn by doing and through the senses › Enjoy music and movement activities › Enjoy using a variety of materials, textures, colours, surfaces through art and craft experiences › Begin to participate in group activities and productions 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Begin to develop a sense of trust in the learning/school environment › Use courtesies and polite expressions › Begin to develop an awareness that others are “real” and have feelings. Begin to have a sense of helping rather than hurting others and show emotion when others are in pain or discomfort › Begin to display emergent negotiation skills › Begin to be aware of and obey rules of the classroom/learning environment and school › Explore and show appreciation for nature/the environment 	<p><i>If provided with the appropriate opportunities children will</i></p> <ul style="list-style-type: none"> › Learn to exercise care in the learning/school environment › Seek/call for help in an emergency or when in danger

3-YEAR-OLDS

Term 1

THEME: ALL ABOUT ME

SUB THEME:

WHO AM I ?

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> › I have a name; everyone has a name; some names are long and some are short; some names are the same and some are different; we know each other by our names › My name can be written; everybody's name can be written; my name begins with a special sound › My birthday is special because it is the day when I was born; I was born in _____ [month]; I can count some of the children who were born in my special month. I can count the candles on my birthday cake › When I was a baby I was small (little); now I am a big boy/girl › Each child has one body with many parts including: one head, nose, mouth, tongue, face, neck; two eyes, ears; ten fingers, toes; hair; many teeth › Boys and girls are different in some ways: a boy has a penis like his daddy, a girl has a vagina like her mommy 	<p><i>Children will engage in a wide range of activities in which they can:</i></p> <ul style="list-style-type: none"> › respond to their name orally; tell own name; learn the names of other children › recognize similar sounds in names; recognize similarities and differences between names › identify own written name, distinguish between own written name and those of others, distinguish between the beginning sound of own name and those of others › participate in activities, songs, dances, games and imaginative stories that highlight each child's birthday and month › identify colours (red, blue, green) of balloons, party hats, clothes › count children born in each month; identify and represent these children in different ways, using building blocks and picture graphs (pictographs) › share and talk about themselves as a baby and caring for babies using pictures/stories/books; create a class album of baby pictures; sing baby lullabies and songs. › identify, name, count parts of the body; paste pictures of the eyes, nose, mouth, ears on an outline of the face and other parts on an outline of the body › tell differences between boys and girls 	<p>boy girl name long short same different sound birthday count small little big one two penis vagina ears nose mouth tongue face neck feet fingers toes hair teeth</p>
